

E. STADIUM BLVD. BRIDGE OVER S. STATE ST. LANE CLOSURES

The City of Ann Arbor will be reducing the E. Stadium Boulevard Bridge over S. State Street to one lane in each direction due to additional deterioration that has been discovered during a recent inspection. The lane closures will be implemented on February 23rd, depending on the weather. The existing weight limits of the bridge will not be changed at this time, however, they may need to be revised in the future should the bridge continue to deteriorate. For additional information please contact Michael G. Nearing, P.E. at 734-794-6410 x43635.
